

## ANCHORING CLAMP

### Application:

Used to anchor and tighten low voltage aerial cables with insulated neutral messenger.

### Material:

Clamp body is casted of corrosion resistant Aluminum Alloy with high mechanical strength;  
Metal support is made of stainless steel;  
Wedges are made of weather resistant and anti-UV material with high mechanical strength.

**Standard:** EN 50483-3, NF C 33-041

Type	Conductor Size (mm <sup>2</sup> )	Conductor Diameter (mm)	Failure Load	Pack (PCS)
